A scenic view of a city skyline across a body of water. In the foreground, several people are engaged in water sports: two men on a yellow and blue inflatable, a man on an orange inflatable, a woman on a white inflatable, and a group in a dark canoe. The water is calm with light ripples. The background features a dense urban skyline with various high-rise buildings, some under construction with cranes. The sky is bright blue with scattered white clouds. Lush green trees frame the left and right sides of the image.

**OK, but what do people say
about J 12 Designs?**

“

Every project James Lewis has done for me has been fantastic. He's the best in San Antonio. He is a close friend of mine has just finished a recent project with him and I am so proud of the work. He's artistic, and can get things done on time.

James and I were together at Rackspace, and I will continue to work with him for years to come.

“

James and team worked diligently on our website's redesign. The team took the time to truly understand our business objectives and took steps to make sure our visitors have a seamless experience while utilizing our site. They continue to help implement changes and updates that need to be made across the site as well!

SILO Restaurants has had the pleasure of utilizing James Lewis services since 2002.

His creativity and understanding of our goals have been five star. Over the years, I have recommended him to several groups of which have had equal success.

Please accept this as both a professional and personal referral.
